

Public Information Hearing

Lemmon Drive Traffic Improvements & Resiliency Project

The Regional Transportation Commission (RTC) of Washoe County and the Nevada Department of Transportation (NDOT) invite the public to a hearing to review the Environmental Assessment document and design updates for the Lemmon Drive Traffic Improvements & Resiliency Project.

The project proposes improvements between Fleetwood Drive and Ramsey Way, including roadway realignment and reconstruction above the 100-year floodplain to improve safety, connectivity, and resiliency—especially during extreme weather events.
